

Ashley Richardson  
October 28, 2025

1 Taylor and I were very close friends. We had a  
2 constant communication before things got very  
3 strained and awkward between us. And so whatever  
4 she was going to have with this new team was not  
5 going to be the same. And I knew this team,  
6 obviously, was hostile towards the Persistence team.  
7 I could tell.

8 Q. Okay. And you -- when you say "I'm trying  
9 to get as much done as I can before I have to pass  
10 the baton" -- "passing the baton," you are referring  
11 to Taylor's assets. And "as much done as I can,"  
12 you mean as much training as possible?

13 A. I don't know. I don't actually think  
14 that's what it was referring to. I think it was  
15 referring to the allocation of Persistence and the  
16 liquidity pools and swaps.

17 Q. So you wanted to put as much of Taylor's  
18 assets as possible in those products before you had  
19 to give them back?

20 A. No, that wasn't it at all. I was -- I was  
21 saying, "What is the best yield and opportunity  
22 here?" And it was that simple. I wasn't -- I  
23 wasn't getting -- you -- I feel like the question  
24 you are asking makes an assumption. I believed at  
25 this point in Persistence, and I believed, you know,

Ashley Richardson  
October 28, 2025

1 in -- in where it was headed. And this was going to  
2 be the end of my determination of what was going to  
3 happen with the Persistence assets. It was going to  
4 be --

5 Q. At this point -- at this point, you have  
6 been asked to return the assets. Isn't that right?

7 A. I mean, my understanding was to bring  
8 the -- the hard wallets to Taylor.

9 Q. You didn't think that meant return the  
10 assets to her and stop making trades?

11 A. That was never explicitly explained.

12 Q. So when Leih Wang says, "I'm taking over  
13 the administration of Taylor's crypto assets," you  
14 thought you still had free rein to trade her assets?

15 A. I don't think that I thought I still had  
16 free rein. Obviously, I wasn't -- you know, these  
17 were large amounts, and they were being allocated in  
18 a specific way. But I -- you asked me a question  
19 which was "What were you referring to in this  
20 section of text messages?" And I'm answering your  
21 question. What I was referring to in that section  
22 of text messages was her allocation of Persistence  
23 and ATOM on those pools.

24 Q. And -- but you recognize, don't you, this  
25 is after you were asked to give the assets back?

Ashley Richardson  
October 28, 2025

1           A. I had a conversation with Taylor, as I just  
2           expressed in a previous question, mid-April. So it  
3           would have been at this time. And Taylor directly  
4           knew exactly about this allocation, authorized it in  
5           the last exchange I had with her. In fact, I  
6           brought the hard wallets to her address in Malibu.  
7           I said, "Do you want to do this? This is an  
8           opportunity." And she said, "Yes, I want to do it."  
9           So I kept two of the wallets. I went home. I made  
10          the transaction. I did the setups. And then  
11          Michele later took those remaining two wallets to  
12          Esztella at the Santa Monica house.

13          Q. So your -- your testimony is that despite  
14          being told on March 25 that another professional is  
15          taking over the administration of her assets,  
16          despite being emailed and contacted multiple times  
17          to receive the wallets -- and it's like handing the  
18          wallets -- you still have the authority to execute  
19          these trades for Ms. Thomson? That's your  
20          testimony?

21          A. I object to the question because you are --  
22               (Simultaneous colloquy.)

23          Q. You can object all you like. You were  
24          asked three times, four times already, return the  
25          assets, and you were still making investments.

Ashley Richardson  
October 28, 2025

1 All I'm asking you if it's your testimony  
2 that these were authorized or if these were after  
3 you were asked to return the assets.

4 A. You are making -- you are assuming facts  
5 that are not in evidence. You are taking a portion  
6 of an email out of context for what was generally  
7 happening overall and using that as a reason why  
8 this shouldn't have happened. Taylor --

9 Q. Can you scroll down, please. There's  
10 another chat, 2144. You write: "Trying to help you  
11 have the best shot." "You" being Mr. Aggarwal. "I  
12 also think it's good for T." I assume that's  
13 Ms. Thomson. Do I have that right? In this  
14 context, "you" is Aggarwal, T is Ms. Thomson?

15 A. Yes.

16 Q. Okay. "This was set aside and I know the  
17 one percent is there. Best to take advantage."

18 A. No.

19 Q. What's the one percent?

20 A. Okay.

21 Q. Is the one percent the finder's fee that  
22 you agreed --

23 (Simultaneous colloquy.)

24 A. In -- in relation to this, I do not know  
25 what it referenced, but can I can tell you without a

Ashley Richardson  
October 28, 2025

1 shadow of a doubt there was no compensation. I  
2 remember -- I remember -- this is what I remember  
3 about this trade.

4 At that moment in time, I felt very badly  
5 for Persistence because they were, you know, trying  
6 to build this, and I was concerned genuinely that  
7 Taylor was taking her assets to Safferys and they  
8 were going to just liquidate them. And I didn't  
9 know what that was going to do to Persistence. And  
10 so I said, look, you know, what do you guys have?

11 We were trying -- when we started to invest  
12 in Persistence, there's so many things that are not  
13 included in this. There was a genuine energy from  
14 Taylor and from me that we wanted them to do well.  
15 And they seemed like lovely people. I had nothing  
16 to think otherwise. I don't believe they ever did  
17 anything untoward. And if they did, I'm not aware  
18 of it. I'm not saying that they didn't. There may  
19 have been --

20 Q. I'm asking a narrower question. You said,  
21 "I know the one percent is there, so best to take  
22 advantage." Isn't the one percent the finder's fee?

23 A. No. I do not know in this -- in this  
24 context. I would have to go back and read it,  
25 truly. I -- I am not saying this to stall time.

Ashley Richardson  
October 28, 2025

1 I'm not saying this to do anything other than to say  
2 I cannot answer that accurately in a snapshot. I  
3 really can't.

4 Q. And when you say "best to take advantage,"  
5 happy face, that's because you still had control of  
6 Ms. Thomson's assets at this time; isn't that right?

7 A. With all due respect, Mr. Evans, I think I  
8 just told you I cannot answer that question  
9 accurately. And so you trying to make me answer it  
10 in a certain way is not going to happen.

11 Q. These -- I didn't write this. These are  
12 your words.

13 A. Yes. You didn't -- you -- you put context  
14 to something that doesn't exist. And I'm not --  
15 like, I'm saying I need to review the document. I  
16 don't know that that's what it means. This was a  
17 text message exchange that happened four years ago.

18 Q. If you scroll down it says --

19 (Simultaneous colloquy.)

20 A. I need to -- I need to say this clearly.

21 Q. There's not a question pending. We ask  
22 questions. You answer them. This is how it works.

23 A. Mr. Evans, you are asking questions to  
24 mischaracterize what actually happened. And I don't  
25 think -- I don't think that that referred to the

Ashley Richardson  
October 28, 2025

1 finder's fee is what I'm saying. What I would like  
2 to do is review the document in full and have that  
3 chance so that I can answer it accurately. Because  
4 if I was to say that refers to the finder's fee,  
5 that would be two things. One, I have no idea. And  
6 I actually think, truly, there may have been one  
7 percent applied to something in the staking pools.  
8 That could have been one percent to Taylor.

9 I am not -- I am telling you very, very  
10 honestly I need to review that document. Because  
11 you saying isn't it a certain way, I'm saying  
12 absolutely not. There were so many things happening  
13 at that time. There were so many movements of -- of  
14 product and materials. That could have been any  
15 number of things.

16 Q. No. I'm saying that when you -- when you  
17 are sending a message to the person who previously  
18 paid you a quote/unquote finder's fee for getting  
19 Ms. Thomson involved in the investment, after you  
20 had been asked to return the asset, you continue to  
21 make investments, and you say, "I know the one  
22 percent is there. Best to take advantage," happy  
23 face, I'm asking you whether that's referring to a  
24 finder's fee. It's the same percentage you were  
25 paid before.

Ashley Richardson  
October 28, 2025

1           A.    That's absolutely not a fair thing to  
2           assume.

3           Q.    Okay. So when you say "I just put on 6  
4           million of ATOM," whose ATOM was that?

5           A.    I can only assume that it was Taylor's  
6           ATOM.

7           Q.    Okay. When you say "I only have 2 million  
8           ETH but will add," whose ETH was that?

9           A.    Obviously Tushar is aware. Maybe I phrased  
10          it wrong, but it's -- every -- it was always  
11          Taylor's.

12          Q.    Okay. And you said, "It's my gift while I  
13          can still give it," happy face. What do you mean by  
14          that?

15          A.    Liquidity on the platform.

16          Q.    It's your gift of Ms. Thomson's assets;  
17          isn't that right?

18          A.    No. No, that's not correct. You are --

19          Q.    There's 6 million of ATOM. You just said  
20          that was Ms. Thomson's. The 2 million of ETH, you  
21          just said that's Ms. Thomson's. And then you said,  
22          "It's my gift while I can still give it."

23          A.    You are taking what the intended  
24          conversation was completely out of context. If you  
25          would like me to contextualize it for you, I'm happy

Ashley Richardson  
October 28, 2025

1 to, but that is not correct.

2 Q. It's right there. You wrote it.

3 A. Right. And if you would like me to give it  
4 context, I would be happy to. You can -- you have  
5 done this in the past. You have taken things out of  
6 context and you put them in legal documents that  
7 were filed, including the original legal document,  
8 that look a certain way, but when you actually  
9 scroll back, you see that it's contextualized and  
10 has nothing to do with it.

11 Q. You can take this down. This is Exhibit 6.

12 A. Wait. Let me finish. Let me finish. I  
13 have a right --

14 Q. Ms. Richardson, there's not a question  
15 pending.

16 (Simultaneous colloquy.)

17 (Reporter admonition.)

18 A. You just asked a question about something  
19 that has context, and I have -- I think that I -- it  
20 is within my rights to answer it so that it can be  
21 on the record with proper context, and I would like  
22 to take that opportunity.

23 This was a staking pool that was on the  
24 Terra chain to the best of my memory. They needed  
25 to add liquidity because, to the best of my

Ashley Richardson

October 28, 2025

1 understanding, the liquidity made the whole thing  
2 work. Like, staking pools don't work without the  
3 liquidity.

4 In order to -- to obviously make it great  
5 for Taylor, they created a very high yield for her  
6 staking on there. So Taylor knew that if her ATOM  
7 was parked on this platform, it was going to be  
8 creating an additional yield that was -- it was  
9 substantial. It wasn't crazy, but it was very  
10 substantial. And it was a pair. So it would have  
11 been like -- it was like a pair of ATOM/ETH. That's  
12 how the liquidity pool worked. It required a pair.

13 So the gift was the parking of the assets  
14 on the platform. The upside was substantial for  
15 Taylor because by parking it on the platform, she  
16 was going to receive the yield. The -- the gift for  
17 Persistence was they were going to receive the  
18 liquidity. Both were winners. I got nothing out of  
19 it, but I was genuinely wanting Taylor to win and I  
20 wanted Persistence to win. They were both really --  
21 you know, at the time I still thought Taylor was a  
22 great person and, you know, I would love to believe  
23 that. But, at that moment in time, that was the  
24 reason for it.

25 And so you don't know that context. It's

Ashley Richardson

October 28, 2025

1 very confusing. There's -- there's a lot of subtext  
2 that isn't included in that -- in that note, but  
3 nothing was given to Tushar. What -- what was  
4 happening was Taylor's assets were being parked on  
5 that -- I can't remember the exact word, but it had  
6 to do -- it was a liquid staking pool on a Terra  
7 chain. And Taylor was going to receive yield.  
8 Tushar was going to receive the liquidity in his  
9 pool. Both were supposed to be winners. And then  
10 the market crashed and everybody lost.

11 Q. So the 6 million of ATOM and the 2 million  
12 of ETH, both those trades were losers, right?

13 A. Every cryptocurrency that existed was a  
14 loser within weeks of that time. The entire market  
15 went off of a cliff. Nobody was a winner who was in  
16 crypto.

17 Q. You can take this down.

18 When did you stop trading Taylor's assets?

19 A. I don't know. I would say it was probably  
20 late June of 2022. Somewhere around that time.  
21 Summer of 2022. I can't say approximately.

22 Q. Okay. And during that time, what kind of  
23 transactions were you entering into?

24 A. I mean, I can't -- I can't say  
25 specifically. It was -- it was voluminous. It

Ashley Richardson

October 28, 2025

1 was -- you know, I know that I was attempting to --  
2 attempting to hedge losses in a falling market that  
3 I was woefully underequipped to do and --

4 Q. So there are a significant number of margin  
5 trades; isn't that right?

6 A. That may have been correct.

7 Q. What about leverage trading? Was there any  
8 leverage trading?

9 A. I am sure there was.

10 Q. Okay. What about spot trading? Any stock?

11 A. I can't say with certainty. You know, I --  
12 I can't say with certainty on any specific. It was  
13 a very stressful time, but there were -- there were  
14 many trades that happened.

15 Q. And let me ask you this. In April, you  
16 gave the hardware wallets back. Didn't your  
17 communications with Ms. Thomson cease in April or  
18 May, and June and July there was very limited  
19 communications between you both? Isn't that right?

20 A. It was limited because I was dealing with  
21 the death of my stepmother and a lot of fallout  
22 around our family estate.

23 Q. Okay. So during that time, May, June,  
24 July, were you discussing leverage trading with  
25 Ms. Thomson?

Ashley Richardson

October 28, 2025

1           A.    I wasn't discussing it specifically, no.

2           Q.    Were you discussing perp trading with  
3           Ms. Thomson?

4           A.    I wasn't discussing it specifically with  
5           her, no, but there were many trades that I did that  
6           weren't discussed with her directly.

7           Q.    Just give me one second.

8           A.    I just --

9                   (Simultaneous colloquy.)

10          Q.    Do you trade cryptocurrency in your  
11          personal capacity?

12          A.    I first want to say, in relation to the  
13          last section, it's -- I'm happy to go there, but I'm  
14          objecting that it's not directly relevant to the  
15          lawsuit in question. The lawsuit in question is  
16          about Persistence. It's about defrauding Taylor.  
17          And now we have gone into a different lane that I  
18          understand you have every right to discuss, but I  
19          just want to put that objection for -- for relevance  
20          there.

21          Q.    Your objection is noted.

22                  Do you trade cryptocurrency in your  
23          personal capacity?

24          A.    I have, yes.

25          Q.    Okay. When -- when you were talking to

Ashley Richardson

October 28, 2025

1 Ms. Thomson about trading in XPRT, did you yourself  
2 trade in XPRT?

3 A. Yes.

4 Q. Okay. When did you trade in XPRT?

5 A. Unfortunately, I bought the majority of my  
6 XPRT when it was -- it was -- I think it was in May,  
7 when it was \$16.

8 (Reporter clarification.)

9 Q. Okay. Did you trade any XPRT prior to  
10 Ms. Thomson's investment?

11 A. A small amount. And then the majority I  
12 did when the price dropped, at the same time as her.

13 Q. Were there other forms of cryptocurrency  
14 that you invested Ms. Thomson's money into? Did you  
15 trade any of those assets yourself too?

16 A. I mean, we were both trading similar assets  
17 because we were using the predictions of Whitedove  
18 and Robert Sabella to sort of dictate what we were  
19 going to invest in. So yeah, we were doing the same  
20 things. We were basing it off of the predictions of  
21 the psychics.

22 Q. In any instance, did you trade a particular  
23 asset before Ms. Thomson's asset was traded?

24 A. I can't say with certainty. There were so  
25 many trades that happened. It's possible, but I --

Ashley Richardson

October 28, 2025

1 I can't say across the board.

2 Q. Okay. Were you in any -- any Telegram  
3 chats with other traders?

4 A. I -- I think I put those in my -- in my --  
5 my production.

6 Q. Okay. Did you ever talk to anybody else  
7 about investments that Ms. Thomson was going to make  
8 into particular tokens or projects?

9 A. I probably did, but I don't remember  
10 specifically.

11 Q. Okay. Do you know one way or the other  
12 whether those people traded in advance of  
13 Ms. Thomson's trade?

14 A. Absolutely not. Not to my knowledge.

15 Q. Where did you trade your personal assets?

16 A. I mean, all over the place. I, you know --  
17 I use many, many exchanges, and I probably won't  
18 cover them all because crypto is like very complex.  
19 And at that time, before I realized that, you know,  
20 overdiversifying is a bad thing, I think I was  
21 trying everything I could find. I was looking at,  
22 you know, like everything from SushiSwap to  
23 PancakeSwap to, you know, obviously Coinbase. And  
24 the Binance account I -- I opened when Taylor turned  
25 me on to Bitcoin in 2017.

Ashley Richardson

October 28, 2025

1 Q. Give me one second.

2 The centralized exchange accounts, do you  
3 have a Binance account?

4 A. I don't now. I had a Binance account.

5 Q. All right. What about Gate and PrimeXBT?  
6 Do you have your own accounts there too?

7 A. I cannot remember with certainty. I  
8 believe I had a Gate account, and I don't know if I  
9 had a PrimeXBT account or not. I can't recall.

10 MR. EVANS: Okay. All right.

11 Todd, my questions are -- are complete. I  
12 think you might have some more.

13 MR. HARRISON: Okay.

14 MR. EVANS: Thank you, Ms. Richardson.

15 THE WITNESS: Thank you.

16 MR. HARRISON: I have got more questions.  
17 Do you want to take a five-minute break, or do you  
18 want to keep going?

19 THE WITNESS: I think we keep going. What  
20 do you want to do?

21 MR. HARRISON: I'm fine taking a  
22 five-minute bathroom break.

23 THE WITNESS: Okay. I can do that.

24 THE VIDEOGRAPHER: We are off the record at  
25 2:15.

Ashley Richardson

October 28, 2025

1 (Break taken.)

2 THE VIDEOGRAPHER: Back on the record at  
3 2:22.

4 MR. HARRISON: Thank you.

5 Q. Ms. Richardson, I just have a few minor  
6 questions. I just want to go back a little bit to  
7 your job history and your education.

8 A. Okay.

9 Q. You don't have any education or training in  
10 financial management, correct?

11 A. No.

12 Q. Okay. And no -- no education or training  
13 in financial advising, right?

14 A. No. I'm not a financial adviser.

15 Q. Okay. And you -- you don't have any other  
16 degrees or certifications that I don't know about,  
17 right? That weren't on --

18 A. Not that I know of that I can think of.

19 Q. So no, like, cryptocurrency certifications?  
20 There are some out there, cryptocurrencies  
21 certifications.

22 A. Okay. Not that I'm aware of.

23 Q. Okay. And you have never been a licensed  
24 security broker-dealer in California, right?

25 A. No.

Ashley Richardson

October 28, 2025

1 Q. Okay. I want to point you to  
2 November 2021.

3 A. Okay.

4 Q. In November 2021, Ms. Thomson told you that  
5 she was going to be moving to London, correct?

6 A. I think I knew she was going to be moving  
7 to London for years. I mean, that was the plan.

8 Q. Okay. May -- you might have known for  
9 years, but she -- she was going to actually move and  
10 she told you she was going to actually move in  
11 November of 2021, I believe, correct?

12 A. I don't think that there was a definitive  
13 this moment. I think that I knew -- I was aware she  
14 was going to move to London for quite some time. I  
15 sat in on calls with her and accountants in August  
16 of 2021 about the move. So, I mean, it wasn't news  
17 to me.

18 Q. Okay. And why were you sitting in with  
19 calls with her accountants about the move in August  
20 of 2021?

21 A. Because she thought that they were ripping  
22 her off.

23 Q. That what?

24 A. She thought that they were ripping her off.

25 Q. The accountants?

Ashley Richardson

October 28, 2025

1           A.    Yeah.  She didn't think they were doing a  
2           good job, and so she wanted me to listen in.  She  
3           had me listen in to all kinds of things.

4           Q.    Okay.  In that August, September, October  
5           time period, you raised with Ms. Thomson the idea  
6           that you thought that you should get compensated for  
7           handling her crypto for her, correct?

8           A.    I -- I think I might want you to rephrase  
9           the question because my first response would be I  
10          never wanted to be a paid employee of Taylor's, and  
11          that was always clear.  So -- so I would say that is  
12          one thing that I do know.  I did not want to be paid  
13          for the work I was doing, but I also did not ever  
14          anticipate that I was going to take on that level of  
15          -- of consistent, like, all-encompassing work for  
16          her, and that I was losing other opportunities.

17          Q.    Okay.  And you started saying -- I'm going  
18          to say "complaining."  I don't necessarily mean it  
19          negatively.  But you started complaining that  
20          managing Ms. Thomson's cryptocurrency was taking a  
21          lot of your time, correct?

22          A.    It was taking all of my time.

23          Q.    Okay.  But you were not her --  
24          Ms. Thomson's employee, correct?

25          A.    That is correct.

Ashley Richardson

October 28, 2025

1 Q. Okay. And so you didn't have to manage her  
2 cryptocurrency, correct?

3 A. I didn't have to do any of the things I did  
4 for Taylor over the years.

5 Q. Okay. And you weren't getting paid to  
6 manage her cryptocurrency, correct?

7 A. I wasn't getting paid to manage her  
8 cryptocurrency. I wasn't a fiduciary. I was  
9 helping her do something. At first I tried to help  
10 her do it herself, and then she asked me to do it.

11 Q. Okay. And then you had a discussion -- you  
12 and Ms. Thomson had a discussion in November of 2021  
13 where Ms. Thomson talked to you about moving to  
14 London, and she told you that she would take custody  
15 of the cryptocurrency back and put it with an  
16 official cryptocurrency custodian, correct?

17 A. I think that miscontextualizes the  
18 understanding between us, because it was always the  
19 goal to find a custodian that would be able to  
20 safely protect the cryptocurrency and keep it  
21 staked, and we were working to that end. So there  
22 was never -- there was no surprise with that.  
23 Having cryptocurrency in my house was not something  
24 I wanted. It was not safe for me. It was not good  
25 for anybody. We were trying -- nothing existed at

Ashley Richardson

October 28, 2025

1       that time. So the goal was find something that  
2       exists or create it. And we have talked about that  
3       a lot. Like, what could be built to safeguard her  
4       assets. And I was very excited that there could be  
5       something, but I was concerned that she would lose  
6       the ability to keep her assets staked.

7           Q.    Okay. So -- but she told you in November  
8       of 2021 that she was going to take custody of her  
9       cryptocurrency back and put it with a professional  
10      cryptocurrency custodian, correct?

11          A.    I don't remember an exact date. That was  
12      always the understanding of what was going to  
13      happen.

14          Q.    Okay. Then why did it -- why did you not  
15      return her cryptocurrency for another eight or nine  
16      months?

17          A.    There was nowhere for it to go. That was  
18      the only reason.

19          Q.    Well, there are -- there's multiple  
20      correspondence, written communications, between you  
21      and Ms. Thomson over the next six or seven or eight  
22      months where Ms. Thomson is asking you repeatedly to  
23      talk to her accountants and give them an accounting  
24      of the cryptocurrency and to return the  
25      cryptocurrency, correct?

Ashley Richardson

October 28, 2025

1           A.     So I'm going to object on the compound  
2     nature of that question. And if you would like me  
3     to answer it in parts, I would be happy to.

4           Q.     Go ahead.

5           A.     But the way you structured it, it's just  
6     too much for me to remember and answer adequately.  
7     And I would love to answer each of those things  
8     independently.

9           Q.     Go ahead.

10          A.     Can you ask me specifics? Because you  
11     asked me about five questions in that question.

12          Q.     In the six or -- in the six to eight months  
13     following November of 2021, Ms. Thomson repeatedly  
14     asked you to get on the phone with her accountants  
15     and give them an accounting of the crypto, correct?

16          A.     I want to say that I would disagree with  
17     that. I -- I want to preface this by saying I was  
18     not a fiduciary. I was not under any kind of term  
19     or agreement with Taylor. I had no understanding  
20     that I was supposed to be keeping an accounting of  
21     the cryptocurrency. I was helping her to execute  
22     the trades. And there was never a set of  
23     understanding.

24                 After the fact, and to the best of my  
25     memory it was around the time we are talking about,

Ashley Richardson

October 28, 2025

1       spring, there was a request for accounting that I  
2       did not possess. Because there were thousands of  
3       purchases that had happened up to that point, and  
4       then after the fact of the purchases being made, I  
5       was asked for an accounting.

6               So that accounting did not exist because it  
7       was never specified. It was never requested. I was  
8       not a fiduciary. I was just somebody helping her  
9       purchase crypto. And yes, she made requests, but  
10      she was requesting something I did not have.

11       Q.     Right. But she was requesting an  
12      accounting from you for many, many months, correct?

13       A.     I disagree with that. I believe the first  
14      request I received was in -- I can't say with  
15      certainty, but it would have been -- I remember it  
16      specifically fell around the time that my stepmother  
17      passed away, because I was suddenly inundated with  
18      dealing with a lot of major issues, and I got sick.  
19      And I remember getting accounting requests and  
20      thinking I don't have this and also I don't have  
21      time right now, like, to deal with this. So that is  
22      the memory that I have of that specifically, but it  
23      was -- it's kind of --

24       Q.     But you never told her that, right? Over  
25      the next six months you -- you skipped meetings and

Ashley Richardson

October 28, 2025

1       you avoided telling Ms. Thomson that you didn't have  
2       the accounting information that she was looking for,  
3       correct?

4           A.    I think I -- I did tell her on some level,  
5       but you have to understand, this is -- there was no  
6       reason for me to have accounting information. I  
7       wasn't doing anything untoward or preventing  
8       anything. I think -- you are -- I believe that you  
9       are trying to take this in a direction that says I  
10      didn't do something and I was avoiding a fiduciary  
11      responsibility. What I'm saying is I didn't want my  
12      friend to be disappointed in me because I didn't do  
13      this the whole way, because I didn't even know to.

14          Q.    So -- but I think we are agreeing. You --  
15      I didn't ask you anything about fiduciary  
16      responsibilities. All I said was for several --  
17      about six to eight months you did not give  
18      Ms. Thomson an accounting --

19          A.    No, no.

20          Q.    -- when she asked for it, correct?

21          A.    Absolutely incorrect. Six to eight months  
22      is absolutely incorrect.

23          Q.    How long -- from the first time that you  
24      remember Ms. Thomson asking you for an accounting of  
25      her cryptocurrency, how long was it until you

Ashley Richardson

October 28, 2025

1 finally told her that you didn't have the  
2 information she was looking for?

3 A. To the best of my memory, that started  
4 after my stepmother passed and after this time  
5 period. So it would have been -- late April of 2022  
6 is a guesstimate. And then there were lawyers at my  
7 house in June of 2022. So what is that? Two or  
8 three months?

9 Q. Okay. And so it's your testimony that you  
10 don't recall Ms. Thomson ever asking for  
11 accounting-related information for the  
12 cryptocurrency between November of 2021 and April of  
13 2022?

14 A. Whatever she asked for I gave her an  
15 extensive accounting in November to the best of my  
16 ability and understanding at the time. What was  
17 asked of me later --

18 Q. But you've testified repeatedly that you  
19 didn't have the information she was looking for.

20 A. I didn't. Because what I had was here are  
21 the assets where they were that moment. I didn't  
22 have an accounting for how they were purchased. You  
23 have to understand -- okay -- in order to purchase  
24 microcaps at these dollar amounts, Taylor would text  
25 me in the middle of the night and say I want 10

Ashley Richardson

October 28, 2025

1 million this. I want 10 million this. To execute  
2 those purchases, when you make large purchases, the  
3 price jumps up. So there had to be thousands of  
4 purchases in order to get to that 10 million. It  
5 had to happen over days sometimes. And if it wasn't  
6 finished, she would get very upset. Like is it  
7 done? Do you have it? Is it staked?

8 So I would make those purchases over time.  
9 A lot of times I was making purchases with Ethereum  
10 or ATOM, and they were like a token for a token.

11 Q. I'm just -- you are not responding to my  
12 question at all.

13 A. No, I am.

14 Q. So I'm just trying to figure out is your  
15 point you did not keep the records that they were  
16 looking for?

17 A. Let me finish what I'm saying.

18 Q. But you're not answering my question.

19 A. I am.

20 Q. It was a totally different question.

21 A. If you actually let me finish what I'm  
22 saying, I'm getting --

23 Q. Well, if you actually answer my question,  
24 I'd be happy to listen.

25 A. I -- I don't appreciate you -- you cutting

Ashley Richardson

October 28, 2025

1 me off in the middle before I've gotten a chance to  
2 make the point.

3 Q. I don't appreciate you not answering my  
4 question.

5 A. If you let me finish, I would be answering  
6 your question is what I'm saying.

7 Q. Let's see.

8 A. Okay. You can tell me how I do afterwards.  
9 All right. I'm trying really hard.

10 Q. I'm not going to do that. I'm not  
11 interested in doing that. I just want you to answer  
12 the question.

13 A. I -- I cannot answer the question in a way  
14 that is fair --

15 Q. It's a pretty simple question. Let me  
16 rephrase it so we are all clear.

17 You didn't give Ms. Thomson and her  
18 accountants the accounting information they're  
19 looking for because you hadn't been keeping those  
20 types of records, correct?

21 A. And now I'm going to finish what I was  
22 saying previously in order to answer the question,  
23 which is, for every single purchase, which was --  
24 had to be incrementally done, it never occurred to  
25 me -- I was not asked to keep records of anything.

Ashley Richardson

October 28, 2025

1 Nobody ever said we need records. I was making  
2 thousands upon thousands of trades to get her to the  
3 point. That was my job as far as I understood it.  
4 I didn't know that it was also my job to be an  
5 accountant.

6 Q. But all those trades had gains and losses,  
7 right?

8 A. I have no idea.

9 Q. You are trading something on the value  
10 system for other coins or for U.S. dollars. There's  
11 gains and losses to each trade. Otherwise why would  
12 you make them?

13 A. She wanted a purchase executed. I was  
14 executing the purchase. You are stating that I -- I  
15 have some unwritten expectation to also be an  
16 accountant at the same time. I'm telling you I did  
17 what was asked of me.

18 Q. But forget about the accountant part for a  
19 minute.

20 It's your testimony that you didn't think  
21 that Ms. Thomson would expect you to keep records of  
22 the trades?

23 A. None of it ever occurred to me. I was  
24 doing -- I was doing -- it never occurred to me that  
25 I would be executing hundreds of millions of dollars

Ashley Richardson

October 28, 2025

1 of purchases in my house, first and foremost, and it  
2 never occurred to me that she would continue with  
3 such fervor and FOMO. And -- and I was working so  
4 hard, trying to understand how to do it. It was  
5 insanely complicated. I mean, do you know how scary  
6 it is to move millions of dollars on a block chain  
7 and not lose it? It is very stressful. So I  
8 wasn't -- no, it didn't occur to me. I'm being  
9 very, very transparent. I was so overwhelmed by the  
10 pressure of the execution that I wasn't thinking  
11 about it.

12 Now, in hindsight, I also was like oh, my  
13 God. And I was afraid that I let her down,  
14 genuinely. I wasn't worried about --

15 Q. That's why -- maybe understandably from  
16 your point of view, but you were avoiding answering  
17 her question about the fact that you didn't have the  
18 records and the accounting of the trades, right, for  
19 many months?

20 A. I don't think that was the sole reason. I  
21 think it wasn't --

22 Q. What were the other reasons?

23 A. You are mischaracterizing the time period.  
24 It was a short window of time. And during that  
25 specific window of time my entire life was imploding

Ashley Richardson

October 28, 2025

1 with personal issues. That was the main reason.

2 Q. Okay. What were the other personal issues?

3 A. I was extremely ill. And I inherited a  
4 house that was -- disaster zone. The mortgage  
5 hadn't been paid for months. My stepmother's family  
6 had been, you know, keeping things from us. So I  
7 had to go in and kind of run triage on it. And  
8 that -- and then I got very, very sick. Those were  
9 the main issues.

10 This -- this was a small window. It wasn't  
11 -- we are talking about the month of May, really,  
12 and -- and not many months. Because I saw Taylor in  
13 April. Things were above board. I went to -- you  
14 know, I came up north. And then while I was still  
15 up north, within less than a month and a half, you  
16 guys sent somebody to the house with allegations.

17 Q. So -- I'm sorry. Just to list the things  
18 that you were going through. One was you inherited  
19 a house that was a disaster, right?

20 A. Well, I didn't -- I wasn't -- yes, that was  
21 one of the things.

22 Q. Okay. And I think -- I'm sorry. I didn't  
23 hear the whole thing. Your stepmother died, I  
24 think, at some point, right?

25 A. Okay. The answer to this question is --

Ashley Richardson

October 28, 2025

1       you said you avoided her for many months. My answer  
2       is this. A, it was a short window of time from  
3       start to finish. It was not many months.

4           Q.    What do you think was the period of time in  
5       which you did not answer Ms. Thomson's questions  
6       about getting the records and an accounting of --

7           A.    To the best of my memory, it was the month  
8       of May.

9           Q.    Okay. Okay. So -- I'm sorry. You  
10       inherited a house. And when did your stepmother  
11       die? In April you said?

12          A.    The end of March. But I didn't find out  
13       about it because nobody informed us.

14          Q.    I'm sorry to hear that.

15                And you said you got ill during this period  
16       too. When -- when did you get ill?

17          A.    I got really ill in May.

18          Q.    What did you get ill with?

19          A.    I -- there was extreme mold in the house  
20       and so I got really sick with mold toxicity. It's  
21       documented.

22          Q.    How is it documented?

23          A.    It's documented in -- emails and text  
24       messages and a doctor's visit.

25          Q.    Okay. Do you have any medical records

Ashley Richardson

October 28, 2025

1 relating to that?

2 A. I think that's privileged, but you know, I  
3 have -- I don't see how it's relevant to the case.

4 Q. Well, you made it -- I didn't ask you about  
5 it. You brought it up as a reason as to why there  
6 was a delay in answering Ms. Thomson's questions  
7 about accounting. You brought it up. Not me.

8 A. I think that within context of the realtime  
9 period we are talking about and the things that were  
10 going on in my life, those were very real. I'm not  
11 saying -- I'm not refuting what you are saying,  
12 which was I was avoiding it on some level, because I  
13 didn't have it.

14 Q. Okay. Do you remember during this period  
15 telling Ms. Thomson or her daughter that you had --  
16 you couldn't make a meeting with them because you  
17 had gone into anaphylactic shock?

18 A. Well, I was -- I was having anaphylaxis  
19 because of the mold.

20 Q. Okay. How long did you have those problems  
21 related to the mold?

22 A. I mean, it was acute for, I want to say,  
23 weeks. And -- and then it was bad for months. It  
24 wasn't -- it wasn't like I was -- you know, it  
25 wasn't debilitating for months, but it was really

Ashley Richardson

October 28, 2025

1 bad for a few weeks.

2 Q. Did you ever go to the hospital for it?

3 A. I did get medical care for it at one point.

4 Q. What does that mean, "medical care"?

5 A. Like, I went in because I was worried about

6 -- I can't remember exactly what the -- what the

7 circumstances was, but I was really sick.

8 Q. Did you ever go to a hospital?

9 A. I don't think it was a hospital. I think  
10 it was an urgent care, but I can't remember off the  
11 top of my head. I have been to the hospital many  
12 times. I don't know if I went in that window or  
13 not.

14 Q. Okay. Did you have any other illnesses  
15 during this period? And "during this period," I'm  
16 talking about from November of 2021 to June 2022.

17 A. Are we changing topics now?

18 Q. No.

19 A. Well, you were talking about the accounting  
20 and that specific time period, and now you just --

21 Q. All I'm asking you about is illnesses now.

22 A. Okay.

23 Q. So did you have any other illnesses between  
24 November of 2021 and June of 2022?

25 A. I had a number of health issues that I

Ashley Richardson

October 28, 2025

1 think were compounded by stress.

2 Q. Okay. What were those?

3 A. Do you want me to discuss both physical and  
4 mental or --

5 Q. Sure.

6 A. Okay. I think starting in -- I have to --  
7 I have to -- I have to give a broad date range  
8 because I can't remember specifics, but I can say in  
9 the fall of 2021 I started having very strange heart  
10 symptoms and dizziness and vision issues, and I  
11 wasn't sleeping normally. I started having insomnia  
12 because I was very afraid about having crypto in the  
13 house. I -- I didn't want to leave the house. I  
14 went away with Madeleine for a week, and I was not  
15 comfortable with -- that was the only time I left  
16 the house. And before I did it, I sent like as much  
17 crypto as I could to Anchorage because I did not  
18 want it in my house.

19 Q. While you were gone you mean?

20 A. No. I wanted it out of -- I did not want  
21 to have it. So I was like -- Taylor wanted me to  
22 keep the Bitcoin to transact it with other alt  
23 coins.

24 And when I was going to Mexico, I said I'm  
25 not comfortable having this asset when it could be

Ashley Richardson

October 28, 2025

1 parked at Anchorage, because Anchorage had the  
2 capacity to hold digital assets and insure them, and  
3 I didn't have that. In my house, it was -- you  
4 know, it was cryptocurrency that, if anybody found  
5 out that was at my house, could have caused me  
6 tremendous harm. And for that reason, I -- I was  
7 not able to sleep. And that kind of compounded some  
8 underlying health issues, but it certainly -- I  
9 think the stress of, also, the transactions.

10 Every time, especially with Persistence, if  
11 you get one thing wrong, the money is gone. It's  
12 not like moving money in the United States from a  
13 bank to a bank where it's tracked, and like, you  
14 know where it's going. If you -- if you miss  
15 something, the money is gone. It evaporates. And  
16 this was before the -- this was when the market was  
17 going up. It was the bull run. So there wasn't --  
18 we weren't having any losses due to market crashes,  
19 but there was losses because -- sorry. There  
20 weren't losses on my side.

21 But around that time, Karan, who was  
22 Taylor's -- Taylor's head of -- I think he was her  
23 IT guy, but like a -- I don't know -- a bigger one,  
24 because she has a lot of IT. Taylor entrusted some  
25 wallets to him with NFTs. He did something wrong.

Ashley Richardson

October 28, 2025

1 I can't remember. He lost a key or if he lost a  
2 password. And then there was like \$10 million just  
3 gone. And I -- he called me and he was so  
4 terrified. You know, it was like -- I mean, I felt  
5 so badly for the guy because it wasn't -- obviously  
6 there was no ill intent, but it was a really intense  
7 cautionary tale of how easy it was for things to  
8 just disappear.

9 Q. But Karan was Ms. Thomson's employee,  
10 right?

11 A. Yeah.

12 Q. You weren't her employee, were you?

13 A. No.

14 Q. And you weren't getting paid to hold the  
15 crypto, were you?

16 A. No.

17 Q. So you could have given it back to  
18 Ms. Thomson at any time, correct?

19 A. I tried. There wasn't --

20 Q. When did you try to give her the  
21 cryptocurrency back?

22 A. Okay. This implies that she wasn't  
23 actively wanting me to do something with it. And --  
24 and there's two different stories to this. I think  
25 that if you want to go down that path I can give you

Ashley Richardson

October 28, 2025

1 context for it. But I felt responsible to help  
2 Taylor do this. Taylor wanted -- I knew Taylor  
3 wanted --

4 Q. Why? You weren't her employee. She wasn't  
5 paying you.

6 A. That's what I'm going to tell you.

7 Q. And you have free will, right?

8 A. She was my friend.

9 Q. Okay.

10 A. She was -- I know that you are seeing this  
11 in a limited context, and you are a lawyer.

12 Q. I'm really not. I think anyone listening  
13 to your story would say, if it was making you ill,  
14 like you say, and it was causing you so much stress,  
15 like you say, and you were not an employee and you  
16 weren't getting paid and you had no fiduciary duty  
17 and you had no obligation to do -- manage the  
18 cryptocurrency, then logically a person in your  
19 position would have given it back.

20 A. No. Because my history with Taylor, I  
21 really felt genuinely like -- first of all, when  
22 this trading started, I had no plan, interest, or  
23 understanding that I would be doing any of the  
24 trading or that I would be holding the custody.

25 I sat with Taylor and I tried to explain to

Ashley Richardson

October 28, 2025

1 her how to set up a ledger wallet. That was like an  
2 afternoon. I got the wallets. I was like okay. We  
3 are going to set these wallets up. I --

4 Q. Go ahead.

5 A. I don't want to see the keys. I really  
6 wanted nothing to do with it. So we went through  
7 the exercise. I showed her how to set up the ledger  
8 wallet. She --

9 Q. I'm sorry, Ms. Richardson. This is not at  
10 all responsive to my question.

11 My point was you had free will and you  
12 could have given the crypto back, right?

13 A. Well, I'm -- I'm telling you -- I'm giving  
14 you context for the why.

15 Q. But the context has nothing to do with --  
16 that you are giving has nothing to do with my  
17 question.

18 A. It does.

19 Q. Did you have free will and the ability to  
20 give the cryptocurrency back at any time or not?  
21 That's the question.

22 A. There was nowhere for it to go. There was  
23 nobody who could execute those trades. There was no  
24 third party that was -- at that point. All of the  
25 trades that could go through Anchorage did.

Ashley Richardson

October 28, 2025

1           Q.    You don't think Ms. Thomson could have  
2 hired someone else?

3           A.    There was nobody. She didn't want -- you  
4 have to understand --

5                   (Simultaneous colloquy.)

6           Q.    Let's be clear. There were plenty of  
7 people that were much more qualified than you to  
8 manage the cryptocurrency, right?

9           A.    Not at that moment.

10                   (Simultaneous colloquy.)

11          Q.    There were professional custodians as well,  
12 correct?

13          A.    There were no professional custodians at  
14 that -- let me finish my question, please.

15                   There were no professional custodians at  
16 this time -- because we did extreme research -- that  
17 could do those low-caps. Anchorage did a lot of  
18 mid-caps, and what we worked with Anchorage on  
19 directly. I had no dog in that fight. I was  
20 calling Anchorage and saying hey, can you guys hold  
21 Persistence? Can you hold these things? The goal  
22 was to get them into a custodial environment where  
23 they were insured and protected always.

24                   And up until that point, she was doing  
25 rapid-fire purchases. So those purchases were

Ashley Richardson

October 28, 2025

1       happening through me. They weren't -- anything that  
2       could be purchased through Anchorage was being  
3       purchased through Anchorage. Anything that was  
4       being purchased and held at Anchorage was.

5               The only things I were purchasing were  
6       extreme low-caps that were not available in a  
7       custodial environment. So things like -- I can't  
8       even remember what it was called. There was one  
9       UK-based crypto and it had its own mechanism. I  
10      mean, these were things that were so off the wall,  
11      like OHM, and all these things that did not have --  
12      I looked. I asked Tushar. I mean, if you really  
13      want to go through --

14             Q.    The only question on the table is you -- is  
15      it really your testimony that you don't think  
16      Ms. Thomson could have hired someone more qualified  
17      and more competent than you at any moment to handle  
18      her cryptocurrency?

19             A.    Yes.

20             Q.    Really?

21             A.    At that moment in time it didn't exist. We  
22      were trying to find somebody. That is my testimony.

23             Q.    Okay. I am going to hand you -- or Josh is  
24      going to hand you --

25                    Do you have another copy of this?

Ashley Richardson

October 28, 2025

1                   Sorry. Let me withdraw that.

2                   You testified previously that you don't  
3 think you got any requests for an accounting on the  
4 cryptocurrency until approximately April or May of  
5 2022, correct?

6                   A. I mean -- okay. Let me rephrase that.  
7 There was a snapshot of what assets were, but there  
8 weren't like a specific purchase price. They were  
9 two different requests. There was a request for a  
10 snapshot of all the crypto and what the values were,  
11 which I provided to the best of my ability, I think,  
12 in December.

13                  Q. You don't consider that to be  
14 accounting-like information?

15                  A. What was asked of me later was very  
16 different.

17                   (Exhibit 75 was marked for identification.)

18                  Q. Okay. Let me just hand you Plaintiff's  
19 Exhibit 75. I'm going to have you take a look at  
20 that for a second.

21                  A. Okay.

22                  Q. It's an email chain between you and  
23 Ms. Thomson and one of her employees where in  
24 November of 2021 -- I'm sorry -- December of 2021  
25 you have given them a spreadsheet of the

Ashley Richardson

October 28, 2025

1 cryptocurrency holdings in response to Ms. Thomson's  
2 request for accounting-type information about the  
3 crypto, correct?

4 A. Right. And that was -- that was provided.  
5 This is as deep as I could go. That was what I had  
6 access to.

7 Q. But this is in December of 2021.

8 A. Yes.

9 Q. Yes. So long before April or May  
10 Ms. Thomson was asking you for accounting-related  
11 information on the crypto, correct?

12 A. It's very different.

13 Q. Very different than what?

14 A. Okay. This is -- this is a list of assets  
15 and their values. That's -- that's a very easily  
16 quantifiable thing. Later what was being asked was,  
17 like, I believed, to the best of my memory, the  
18 purchase prices. And that was all over the map  
19 because there were so many exchanges at different  
20 prices, because the price was fluctuating. So that  
21 was what I did not have track of.

22 This was a very easy exercise. Here are  
23 the assets. These are the amounts. And it took me  
24 awhile, I mean, but I put it together. The other  
25 request was incredibly different.

Ashley Richardson

October 28, 2025

1 (Exhibit 80 was marked for identification.)

2 Q. All right. I'm going to hand you what's  
3 been marked as Plaintiff's Exhibit 80. This is an  
4 email exchange amongst yourself and Ms. Thomson and  
5 Leih Wang, who you previously testified was an  
6 employee of Ms. Thomson's.

7 A. Yes.

8 Q. Where, again, the subject line is "We need  
9 to get a handle on the wallets and the staking and  
10 understand the portfolios." They're asking you for  
11 information and trying to get you on a phone call in  
12 January of 2022, correct?

13 A. Yes. And I believe we followed this up  
14 with a call with Tushar. We had a Zoom call with  
15 Tushar as a follow-up to this.

16 Q. I don't believe that's correct in January  
17 2022.

18 Do you have any documents or information to  
19 indicate that there was a call with Tushar in  
20 January of 2022?

21 A. Absolutely. Yeah, I have tons of  
22 documents. We had a Zoom call.

23 Q. Okay.

24 A. That, I am positive of. And you can find  
25 references to that in the text message exchanges

Ashley Richardson  
October 28, 2025

1 with me and Taylor, with me and Leih, and with me  
2 and Tushar during that period.

3 Q. Okay. Let's see. And then after -- so  
4 what I showed you is December and January, correct,  
5 the last two exhibits?

6 A. Yes.

7 Q. And then there's -- generally there was a  
8 follow-up from Leih Wang and from Taylor Thomson,  
9 asking for information over the following months,  
10 correct?

11 A. It was very minimal. The main  
12 communication that I recall during that time period,  
13 because it was very minimal -- and we can go back  
14 and look at the specifics, and you'll see that there  
15 is a gap -- I heard from Jacques Brodeur -- I may be  
16 pronouncing that incorrectly -- that they needed  
17 money to pay -- they needed \$20 million to pay  
18 Taylor's taxes. And I was so floored at the fact  
19 that anybody would be coming to me for anything  
20 monetary and that Taylor didn't have money to pay  
21 her taxes. So that email I remember.

22 (Exhibit 78 was marked for identification.)

23 Q. Okay. And then I'm going to hand you  
24 what's been marked as Plaintiff's Exhibit 78.

25 This is an email communication between you

Ashley Richardson

October 28, 2025

1 and Taylor and Leih Wang, again, where Taylor asks  
2 you again for an accounting of all and to walk Leih  
3 through the logistics, like the staking and the  
4 lockdown of Persistence as well as the unlocking  
5 schedule, right?

6 A. Can I -- can I take a look, please?

7 Q. Yeah.

8 A. What's the date?

9 Q. July 29, 2022, right?

10 A. Yeah. And then we did. We go on a -- that  
11 was -- we got on the Zoom call with Tushar -- I  
12 think we had two separate things scheduled. I think  
13 right after this exchange we scheduled something  
14 with Tushar, and either Tushar had to cancel or  
15 Taylor had to cancel, and we moved it. And I want  
16 to say that Zoom happened -- I have to go back and  
17 look -- the last week of January approximately, but  
18 it was that month.

19 Q. Okay. Let me switch tracks a little bit  
20 here. Okay?

21 A. Okay. But that was -- in relation to this,  
22 we did. We walked through everything. We brought  
23 Leih up to speed. We spent several hours with  
24 Tushar to explain it to him, the liquid staking, all  
25 of it. So this was addressed directly.

Ashley Richardson

October 28, 2025

1           Q.    In November -- approximately November of  
2           2021, you had a conversation with Ron Murphy --

3           A.    Okay.

4           Q.    -- about you -- your thought that Taylor  
5           Thomson should buy you -- should buy Beau's house  
6           for you, correct?

7           A.    That was never directly said. That was  
8           always my goal, was to get -- buy that house.

9           Q.    Okay.

10          A.    He knew that. There was never -- it was  
11          never said directly that Taylor should buy the  
12          house.

13          Q.    Was it said indirectly?

14          A.    I have no memory of that, but I know from  
15          hearing from a reporter that there's an allegation  
16          that I was trying to untowardly get Beau's house.  
17          That is false.

18          Q.    So is it your testimony that you never  
19          suggested to Ron Murphy that you thought that Taylor  
20          should buy Beau's house for you?

21          A.    I do not believe -- I remember having a  
22          conversation in November with Ron. And give me a  
23          minute, because Ron was a dear friend, so this is a  
24          little bit hard to swallow.

25                   He was having a hard time with Taylor.

Ashley Richardson

October 28, 2025

1 Maybe that was fabricated. And he called me because  
2 he was struggling and was expressing his  
3 frustrations with Taylor being kind of MIA from his  
4 life. And I was expressing my frustrations because  
5 I was worried about what I was doing for Taylor and  
6 not knowing how it was going to go. I didn't  
7 disclose anything to Ron about the structure of what  
8 Taylor and I had in place. I didn't disclose it to  
9 anybody. But I said I'm working full time and I'm  
10 losing other opportunities, I think. I mean, I  
11 think that I did express that to him because I was  
12 frustrated. I never thought it was going to take  
13 over my life the way it did.

14 And because I was not able to do  
15 anything -- and I didn't know that I was ever going  
16 to receive any compensation. Taylor alluded to  
17 that. We had the steps set aside. I had told her  
18 that I wanted to utilize some of the money for  
19 creating an animal sanctuary. We discussed that at  
20 length.

21 Q. Using some of what money?

22 A. Some of the upside from the Persistence.

23 Q. So, again, you are nowhere near answering  
24 the question that I asked, which was --

25 (Simultaneous colloquy.)

Ashley Richardson

October 28, 2025

1           Q.    -- with Ron Murphy that you've said you  
2    had --

3           A.    Yes.

4           Q.    -- you indicated to Ron that you were upset  
5    because you'd been doing a lot of work for Taylor  
6    Thomson, and you thought you should be compensated  
7    in some way, correct?

8           A.    He said -- he said, "Do you want to" -- I  
9    remember him asking me something to the effect -- I  
10   don't know if it was on that call or not, but I've  
11   thought about this in hindsight. He said something  
12   to the effect of "You guys are simple. You guys  
13   live a simple life," because we did. And I said,  
14   "Yeah. But I would really love to buy Beau's  
15   house." And that -- it was not "Taylor should buy  
16   it for me." I always wanted -- I never had any  
17   expectation of Taylor buying anything for me, but  
18   that was -- a goal line was to get to a place where  
19   I could buy that house. It was a very simple, very  
20   understated ranch house on a nice property that is  
21   now -- no longer exists because of the fires.

22          Q.    Let me ask again: Is it your testimony  
23   that you did not tell Ron Murphy in that -- in a  
24   conversation in November of 2021 in any way that you  
25   thought Taylor should buy the house for you?

Ashley Richardson

October 28, 2025

1           A.    I have no memory of saying that Taylor  
2           should buy the house for me, no, but that is a phone  
3           conversation that happened four years ago. I don't  
4           believe I ever would have said or that I ever said  
5           Taylor should buy me anything.

6           Q.    Okay. But you did indicate to Ron in that  
7           conversation, as you testified a minute ago, that  
8           you had been doing a lot of work on Taylor's crypto  
9           and that you felt you should be compensated for  
10          that?

11          A.    I think -- what I remember more about that  
12          conversation was the toll it was taking on me. And  
13          it's possible that I said something about feeling  
14          like I was missing out on other things, but I also  
15          remember telling Ron -- because Ron and I both knew  
16          that things did not end well for Taylor's employees.  
17          And I knew, based on that alone, I did not want to  
18          be Taylor's employee. I valued Taylor. I valued  
19          Taylor tremendously, especially during that time,  
20          because my world had gotten very small during COVID.  
21          And Taylor was one of a small handful of people that  
22          I saw and that I interacted with. And so --

23          Q.    I'm just -- I'm going to ask the question  
24          again because I've asked it several times, and you  
25          haven't really answered it: So is it your testimony

Ashley Richardson

October 28, 2025

1       that in a conversation in or around November of  
2       2021, when you told Ron Murphy that you were doing a  
3       lot of work for Taylor's crypto -- is it your  
4       testimony that you did not say in that conversation  
5       that you should be compensated?

6           A.    I'm saying I don't remember saying it.

7           Q.    Okay.

8           A.    I'm telling you what I remember, and I'm  
9       saying I don't remember saying that directly. I  
10      think that at that point, I did feel like I should  
11      be compensated, yes.

12          Q.    Okay.

13          A.    I was working 80 to 90 hours a week.

14          Q.    Okay. You mentioned just a second ago -- a  
15      few seconds ago -- and you said this before --  
16      because you were handling Taylor Thomson's  
17      cryptocurrency, you missed out on other  
18      opportunities. What specific opportunities did you  
19      miss out on?

20          A.    I mean, there was -- there was a lot of  
21      things. I'll start with the obvious and then go  
22      kind of backwards. When I reached out to  
23      Persistence, it was not -- like, it was because I  
24      wanted to do, you know, some kind of marketing or  
25      some sort of consulting for crypto companies. I

Ashley Richardson

October 28, 2025

1       thought, you know, crypto seems like the future. At  
2       that moment in time, production had stopped. And so  
3       my job was a, you know, film and television  
4       producer. Nothing was happening. I needed to  
5       pivot.

6           Q.     Just so we can agree on when this was, this  
7       is, I think, approximately April of 2021 when you  
8       first reached out to Mr. Aggarwal at Persistence?

9           A.     No. I didn't reach out to Tushar until  
10      June, I think.

11          Q.     Okay. But -- of 2021?

12          A.     It was 2021, yeah.

13          Q.     Okay. And as you said, one of the reasons  
14      you reached out to Mr. Aggarwal was you -- COVID had  
15      affected your industry, you weren't working, and you  
16      were looking to create other opportunities for  
17      yourself, correct?

18          A.     That's correct, yeah.

19          Q.     Okay. And -- but Mr. Aggarwal wasn't  
20      really interested in having you do marketing for  
21      him, right?

22          A.     He seemed to be. He -- I had a Zoom with  
23      his marketing team. I was going to put together a  
24      structure, and we were going to go from there. That  
25      was going to be the focus, I thought. But then I

Ashley Richardson

October 28, 2025

1 was -- I didn't -- I had a call with Tushar for the  
2 first time right before I went with Taylor to  
3 Europe. So I think it was -- it was, like, the end  
4 of June. And then I went with Taylor to Europe in  
5 July, approximately. And when I got back from  
6 Europe, I said, "Hey, I'm finally getting back. We  
7 can have that marketing call."

8 I can't remember exactly, but I think that  
9 I had a follow-up call with the marketing team. We  
10 started talking about their brand identity. And  
11 then right after that, Taylor came back. And then  
12 it moved to me helping Taylor, and then there are --  
13 it is documented, if you go through the text  
14 messages you have -- I think the ones I sent to  
15 you -- I can't remember which person it was. Maybe  
16 Abhitej or one of them. I can't remember which one  
17 did the marketing -- where I was apologizing that I  
18 didn't have time to focus on it because I was  
19 consumed with all of the other stuff.

20 And I said, "But hopefully we'll get back  
21 to that." So that was -- that was an opportunity.  
22 There was another cryptocurrency company that  
23 reached out to me at that time about being their  
24 head of marketing.

25 Q. Who was that?

Ashley Richardson

October 28, 2025

1           A.    I am totally blanking on the name. I can  
2           look it up for you. It -- I have email chains. It  
3           was, I believe, in the Cosmos chain. And I think it  
4           was -- I don't know if it was -- I can't remember if  
5           it was a token or an exchange, but I think it was an  
6           exchange. And I also had the work that I was doing  
7           for Michele's company, which I suddenly stopped.  
8           And up until that point, I was doing a good chunk of  
9           work of bringing in new business and also  
10          representing artists. And I couldn't do that  
11          anymore. There were also --

12          Q.    What time period are you talking about?

13          A.    We are talking about -- now we are talking  
14          about -- starting in August, 2021, onward, I did not  
15          have the resource of time available. And -- and I  
16          was happy to do it because I was -- I legitimately  
17          thought there would be a longer-term upside from  
18          both the experience I was gaining. And, you know, I  
19          thought -- I thought, stupidly, Taylor and I were  
20          going to build something together and do something  
21          with it. You know, she was my friend.

22          Q.    Okay. Let me unpack some of that. So it's  
23          all -- you are saying that in August of 2021 is when  
24          you started getting really busy with Taylor's  
25          cryptocurrency, and you had to start turning down

Ashley Richardson

October 28, 2025

1 other opportunities. Is that right?

2 A. Yes.

3 Q. Okay. And the one -- you said -- you've  
4 talked about, I think, two opportunities. One is  
5 with a company whose name you don't remember, right?

6 A. Well, you didn't let me finish, but --

7 Q. I actually did let you make a long-winded  
8 answer and finish. So --

9 A. I didn't --

10 Q. And you yourself said you don't remember  
11 the name of the company. I'm just repeating what  
12 you said.

13 A. It was either -- it was, like -- this was  
14 four years ago. It was -- it was -- they reached  
15 out to me. I mean, I can go back and look. I  
16 don't -- it was -- I can't remember everything.  
17 I -- I will be -- how about this. How about I email  
18 you by tomorrow with the name just so you have it?

19 Q. Great.

20 A. And we can put it on record.

21 Q. We are going to follow up with a letter  
22 asking you to produce a lot of stuff --

23 A. That's fine.

24 Q. -- that hasn't been produced. So -- so  
25 that's one opportunity. You were going to be

Ashley Richardson

October 28, 2025

1 marketing director for them? Is that what you said?

2 A. Marketing director. And then there was --  
3 there were other --

4 Q. Wait, wait. Let's take it one at a time.

5 A. Sure.

6 Q. Did they make you an offer of employment?

7 A. No, but I did not have the ability.

8 Q. And when were you talking to them?

9 A. I think that would have been September.

10 Q. Okay. And did you tell -- if you -- did  
11 you tell them that you didn't have time to -- to  
12 work with them?

13 A. Yeah.

14 Q. Okay.

15 A. I believe. To the best of my memory.

16 Q. Okay.

17 A. I can't say with certainty, but it was -- I  
18 didn't have time.

19 Q. What other -- what other specific  
20 opportunities did you turn down?

21 A. Well, I had a slate of projects that I  
22 carried over from COVID on the development side.  
23 There were several documentaries and scripted  
24 features that I abandoned because I didn't have the  
25 time for them anymore.

October 28, 2025

1 Q. Okay. What were the development projects?

2 A. I mean, there was -- I can send you the  
3 slate.

4 Q. Yes. Do you have a list or something --

5 A. Yeah.

6 Q. -- with all the development projects?

7 A. Yeah.

8 Q. Okay. And what -- were you doing that with  
9 a company, or what were you doing?

10 A. Well, I was a part of a company that closed  
11 at the beginning of COVID. And so those projects  
12 were still under my kind of banner to move forward,  
13 if I was able. And there was a lot of opportunity  
14 there once the production sort of began to resume.  
15 To be fair, it -- the industry in general has  
16 suffered because of strikes and other things, but  
17 that was my -- that was my world. And I had  
18 invested a lot of time and energy in development.  
19 And, you know, then I left them because I didn't  
20 have the time to --

21 Q. Okay. COVID hit in the very beginning of  
22 2020, correct?

23 A. Mm-hmm.

24 Q. Okay. And it affected that industry  
25 enormously, right?

Ashley Richardson

October 28, 2025

1 A. Yes.

2 Q. As you said many times, it basically shut  
3 down the industry, and it shut down the company you  
4 were working for, correct?

5 A. Yes.

6 Q. The very beginning of 2020?

7 A. Well, not the beginning, but, like, April.

8 Q. Well, March is when everything shut down.

9 A. Yeah.

10 Q. March of 2020, correct? Okay. And you  
11 didn't start managing Taylor's crypto for a year and  
12 a half after that, correct?

13 A. No. I worked -- I told you I worked with  
14 Michele and Cypress Peak.

15 Q. Okay. So what work did you do on these --  
16 this slate of development projects between the  
17 beginning of 2020 -- whatever it was -- February or  
18 March 2020 and the time a year and a half later that  
19 you started working on Taylor's crypto?

20 A. The development projects during that time,  
21 I didn't do that much work on. But you're always in  
22 development. It's constant. You are -- you are  
23 researching. You are resourcing. You're -- you  
24 know, it's -- the biggest thing that couldn't happen  
25 was in-person networking, which I was used to doing

Ashley Richardson  
October 28, 2025

1 up until that point. So it wasn't as, you know --  
2 people kind of just abandoned that sector for a  
3 while. I mean, I built a van.

4 Q. That's my -- that's my point. That's my  
5 point.

6 A. Yeah.

7 Q. So there wasn't really any development work  
8 going on between March of 2020 and mid to late 2021,  
9 correct?

10 A. Correct. But it was starting to pick up  
11 again right around the time I started helping Taylor  
12 is my point.

13 Q. And was there any specific offers or --  
14 anything more about these development projects? Did  
15 people -- did anyone specific approach you and say,  
16 "We should revitalize that project" or "I would like  
17 to have a contract with you about developing that  
18 thing" or "I would like to invest some money in  
19 that"? Anything specific?

20 A. I know that there were a number of  
21 projects -- one with an actress and friend of mine  
22 Lina Esco that she was developing. I had a book  
23 option for my friend Toby Barlow. I mean, there was  
24 a few projects that came to me, and I did not  
25 have -- I did not have the time. So like anything,
